

VIMANA was represented as a way to connect the Nice airports with hotels and private residences of Monaco

November 10, 2017 – Monaco – Kirill Nikolaev, board member of VIMANA Global Inc., participated in the Blockchain Legal Investments Forum (<http://eventcha.in/2017-11-10/blockchain-legal-investments-forum>), one of the biggest events of the blockchain industry in Monaco.

Kirill Nikolaev presented a speech titled “Challenges and opportunity for technology regulation to build a bridge between fiat and crypto assets”. Also, during the Forum, private presentations were held for investors regarding investment opportunities for VIMANA Autonomous Aerial Vehicle (<http://vimana.global/>). Furthermore Kirill Nikolaev had a discussion with Monaco government representatives on relevant issues concerned the implementation of the VIMANA as a way to connect the Nice airports with hotels and private residences. Besides, Kirill discussed some issues, concerned governmental regulation of blockchain with representative of the Ministry of Finance and Economy of Monaco (<http://en.gouv.mc/Government-Institutions/The-Government/Ministry-of-Finance-and-Economy>).

“I was pleased to raise such relevant issues with government officials. This forum was a great opportunity to present innovative VIMANA project and to start a dialogue”, -says Kirill Nikolaev.

The event was held in the Hermitage Hotel and was supported by the Ministry of Finance of Monaco. The Forum was intended to gather experts in the field of blockchain and to learn how blockchain was disrupting many industries and economies. A number of advanced startups were presented at the Forum. These projects are mainly interested in registering their companies in Monaco due to the fact that the Government of Monaco has openly declared support and privileges for the growing IT projects.
